An Affordable Alternative:

Our cards look and work just like HID®
PVC proximity cards, but cost less!

Faster Delivery:

Our credentials ship within 48 hours

(Details Inside)

PROXIMITY CARDS

PVC Printable

These proximity cards look and work just like HID® PVC proximity cards, but cost less! They are a smart replacement for most HID® cards and can be easily integrated into your existing or new door access system.

48-Hour Delivery - Prox cards are usually programmed and shipped within 48 hours.*

Easy Integration with Your System - Several formats are available, including the industry standard 26-bit.

Lifetime Warranty Included**

Customization - Prox cards can be custom printed within 10 business days after proof approval.

Available in PVC or Composite Material

With or Without HICO Magnetic Stripe

Clamshell Cards

Get more for your dollar! We've made our cards, already a budget-friendly alternative to HID® proximity cards, even more affordable with the introduction of new clamshell cards.

Durable - Clamshell cards are made of ABS plastic, a strong, dependable material widely used in industrial and manufacturing settings.

Fast - On average, clamshell card orders are shipped within 48 hours of receiving the order.*

Protected - We stand by our product by offering a limited lifetime warranty that will protect against any manufacturer defect for the lifetime of the card.**

Affordable - Clamshell cards offer similar quality and can replace most HID-brand prox cards at a lower price.

Back

Front

Durable and Affordable!

*Average lead time for orders of 1,000 cards or fewer. Canadian customers may experience a delay. Our team will be happy to provide you with an accurate delivery time frame.

**Card has a lifetime warranty due to any manufacturer defect for the lifetime of the card.

UBand™ Prox

*The applications of a card,
the convenience of a wristband*

Usability - Use it as a replacement for an access card in a system that doesn't require visual identification or use it as a complementary option in an existing access ID card program.

Wearability - Unlike cards, which need to be carried in a pocket or on a lanyard, UBand remains attached to the user naturally, increasing the likelihood of use while decreasing the likelihood of loss or theft.

Durability - UBand is waterproof, sweatproof, and can stand up to the rigors of everyday use.

Standard UBand Prox wristbands are available in black and blue.

Minimum order quantity (MOQ) is 100 pieces; however, orders can be placed in 25 piece increments of various wristband sizes to meet the MOQ.

Additional colors and customization with a logo, graphic or text are available upon request. MOQ for custom orders is 1,000 pieces, with a lead time of five weeks.

125 kHz Proximity UBand™

Key Fobs

Same access as big-brand fobs at a lower price!

Our key fob is a cost-effective solution for access control. This plastic key fob performs the same functions as a standard proximity card, meaning it can serve as a convenient, affordable replacement for proximity cards.

Less than an inch in diameter and just millimeters thick, our key fob can be attached to a key ring, badge reel or other attachment for fast, easy access. Each plastic key fob features the sequence number laser-engraved on the back, making it easy to keep track of individual fobs in a crowded access control system.

- Our cards and key fobs are compatible with certain 125 kHz HID®-brand cards and fobs, allowing you to seamlessly switch to us and save money in the process.
- Our plastic key fobs ship quickly: orders of up to 1,000 fobs will ship within 5 days!
- These key fobs are available in several bit formats, including 26-bit, 35-bit and 37-bit. Switching to our key fobs will allow your organization to keep the same access control system while saving money. These are the perfect key fobs for parking garages, corporate offices, government buildings and more.

Perfect for Parking Garages,
Corporate Offices,
Government Buildings and more!
